Fire! Attention! Fire!

Few years ago any man could make his thousands in this A town; competition was not known; every merchant sould get his own price for his goods. Now he gets up early, strives, crowds, pushes, works hard, tells lies, swears that his acighor can't sell goods so cheap, without he stole them.

So with Insurance Companies. The old Harlford Companies. nice have grown immensely rick-no one to interfere wit nice have grown immensely rich—no one to interfere with them. Now we have Insurance Companies starting up all ever the land; a farmer can now get his property insured for I per ct for 5 years, when he had to pay that for one year, when we first commenced. The old companies said we must break up; but when we tell them how we do it, they are compelled to say we are doing the only safe way that can reach every farm house and barn in the country.
